INNOVATIVE PLATFORMS THAT ADVANCE SPA DESIGN

WE AREN'T JUST BUILDING PRODUCTS: WE ARE BUILDING TOTAL DESIGN PLATFORMS

The spa industry is vibrant and innovative, full of talented designers and passionate teams. That's why we want to do more than sell you a new product. We want to sell you platforms that encourage innovation, rethink older systems and improve your entire process.

Because when the difference is in the details, **everything matters®**.

CMP SPA PRODUCT BRANDS

EMOTIONAL LED LIGHTING DESIGN

SPA COMPONENT DESIGN SYSTEMS

SPA JET INSTALLATION TECHNOLOGIES

PATENTED INSTALLATION SYSTEM

INNOVATIVE SOFT TISSUE THERAPY

ENTERTAINING HOT TUB WATER FEATURES

FORWARD THINKING ENGINEERING

SQR applies basic laws of physics to create a superior seal, while addressing the issues created by typical torque compression systems.

The patented body and grommet gasket design combination is absolutely the most effective method of spa component installation.

FEWER TOOLS

FEWER STEPS

NO BACKSIDE SURFACE GRINDING

Surface grinding is loud, dangerous, dirty and potentially hazardous. SQR™ can seal effectively with no backside grinding surface prep.

NO NUTS, COMP RINGS OR GASKETS

Scores of parts complicate the work area, increasing preparation time and increasing costs. Fewer installation components simplifies the process.

NO EXPENSIVE SEALANTS

Sealants are messy, expensive and difficult to apply. It is nearly impossible to apply sealants in a 100% consistent way across every installation.

FASTER SETUP

RAPID INSTALL

STANDARD PARTS REQUIRE MULTIPLE STEPS

To ensure a proper and consistent seal, standard parts require sealant, gaskets, comp rings, nuts and must then be tightened to an exact compression specification. Prepping and installing all of these components takes up time and poorly utilizes space.

AGILE STYLE MANUFACTURING

Each step in the process is simplified, which translates into rapid turnaround. Drilling occurs in a single hole-cutting step. Component installation only requires installing the patented SQR™ grommet and patented SQR™ body.

FEWER ERRORS

SIMPLICITY CREATES CONSISTENCY

By requiring fewer components and reducing the need for surface prep, SQR™ creates a much more repeatable installation resulting in increased quality.

RADIAL SEAL ENGINEERING

Radial seals are standard technology across multiple industries. This installation technique is more dependable than compression seals.

BETTER SEALS

PROVEN RESULTS IN THE FIELD

SQR™ technology has been heavily tested in the spa industry for ten years, and used in over 1,000,000 component installs by multiple OEMS.

Portable spa components have been installed essentially the same way for almost 40 years.

It's about time for something better.

Our goal is to provide complete programs that can transform your spa design process. SQR is a complete system for installing spa components, and we are adding more products every year.

SQR IS CURRENTLY AVAILABLE FOR:

- Pro-Loc™ Systems Jets
- LED Laminars
- "Snap-In" Jets
- Optix™ LED Spot Lights
- 3" and 5" Spa Lights
- Skimmers & Filters
- Air Injectors
- Topside Control Valves

AIR INJECTOR

LED LAMINAR

SPA LIGHTS

OPTIX™ LED SPOT LIGHTS

2" SNAP-IN JET

SQR™ CONTROLS

SQR™ system controls are an exclusive option from CMP. Not only do these controls offer the simple and quick reliability of SQR™, the unique design opens up completely new options for LED topside control lighting design.

UNIQUE SQR™ CONTROL FEATURES

Customizable Decorative Accent

SQR™ Grommet Doubles as the Light Emitter

Soft, Even Lighting with No Hot Spots

LED Port is Built Into the SQR™ Grommet

SPECTRUM™ P R I M E

A. HIGH-POLISH STAINLESS STEEL FINISH

B. CUSTOMIZABLE NOZZLE AND FLANGE

C. DECORATIVE RING OPTION ON SELECT NOZZLES

Like all Spectrum™ jets, Prime jets allow for a custom nozzle ring, eyeball and flange. Additionally, they work as a part of Pro-Loc™, the most reliable and effective body style for spa jets.

300 SERIES SPECIAL EDITION

Unique three inch jets designed to fit in a two inch jet body; available exclusively in the Spectrum Prime design.

THREE POPULAR NOZZLE STYLES

CUSTOM-COLOR OPTION JET FACE INSERT

CUSTOMIZABLE NOZZLE RING

HOW THE SPECTRUM SYSTEM WORKS

A. ESCUTCHEON

High-polish stainless steel design that provides the perfect fit and finish for a design insert.

B. DESIGN INSERT

Customize the insert design and color.

C. NOZZLE RING

Directional and Rotational nozzles are available with an accent ring in stainless steel or custom-colored plastic.

D. NOZZLE/EYEBALL

Eyeballs are available in a variety of colors to complement the overall design, and also in clear for colorful LED accent lighting.

E. FLANGE

The Spectrum flange can also be molded in any color to create a completely unique design.

INNOVATION THROUGH PLATFORM THINKING

The Spectrum system offers spa OEMs an effective and simple platform for jet development. This platform-centric thinking keeps tooling costs low and allows for rapid design to market deployment.

OPTIX™

EMOTIONAL LED LIGHTING

A complete, cohesive LED design program that is compatible with systems from every major LED supplier. Our focus is on thoughtful designs that are easy to install for both interior and exterior lighting. Optix includes platform-driven designs that can be customized quickly and with minimal tooling costs.

INNOVATIVE, UNIQUE, CO-MOLDED DESIGNS

STAINLESS STEEL OPTIONS

CLEAR OR DIFFUSED POLYCARBONATE LENSES

aqua effects™

A graphic element consisting of a series of overlapping, curved lines in shades of blue, green, yellow, and red, with small circles of the same colors scattered along the lines, resembling a stylized wave or musical notes.

Experience Liquid Color . . .

Aqua Effects™ water features from CMP create a nature-inspired look and feel. Gently cascading water flumes mimic the sounds of nature and add ambiance to your designs.

FAST HOLE SAW DRIVEN INSTALLATION

SMALL SPACE-SAVING FOOTPRINT

"POP-UP" AND FIXED WATER FEATURES

INNOVATIVE PATENTED DESIGNS

A close-up photograph of the Aqua Effects Stream Mini water feature. It is a black, cylindrical pop-up fixture with a blue illuminated base. Water is cascading over its top edge into a white sink. The background is dark and out of focus.

AIR X[®]

HARNESS THE POWER
OF AIRNETICS[®]

Introducing a completely new soft tissue hot tub therapy experience.

Air X® infuses the soft feel of air and water with a kinetic power derived from jet engine technology. Spa jets can offer power and precision, but Air X is something completely different. Utilizing Airnetics® engineering, Air X multiplies the air output resulting in a jet stream that is soft and powerful. By combining three flow patterns with stimulating reflexology, sore muscles and tired joints are soothed and rejuvenated.

AIRNETIC® THERAPY

INNOVATIVE DESIGN

COMPLETE SYSTEM

SHOWROOM READY

A total therapy system designed to draw up to three times the air of a standard jet.

AIRNETIC® THERAPY

AIR X

Precision Soft Tissue Massage

AIR X targets sensitive areas with passive and targeted air therapy.

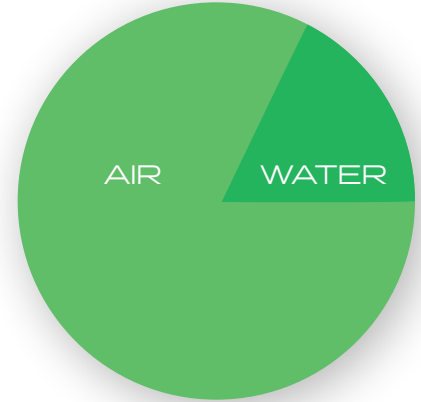

High Volume Dynamics

Typical jets are at best an 80% water and 20% air mix. Air X draws up to 80% air and 20% water.

Reflexology Massage Ring

Soft, air driven therapy is enhanced with tactile reflexology stimulation for multi-sensory interaction.

INNOVATIVE DESIGN

Air X® is like nothing else in the industry. This system has been tested and refined by the CMP engineering team to create a totally new therapy experience.

*Jet Engine
Inspired*

*Air multiplying technology without extra noisy
blowers for efficient and powerful performance.*

COMPLETE SYSTEM

Three Flow Style Options

Trinetic: Precise therapy for targeting problem areas.

Binetic: A special dual flow pattern spreads therapeutic effects over a wide area.

Polynetic: Powerful balanced flow; perfect for wrists, joints and extra sensitive muscles.

Continuously Variable
Flow Air Control

Wide Range of Flow Adjustment from 0-100%

Precise Air Volume Control

Control More Than Air Flow "On" and "Off"

SHOWROOM READY

Air X® is a one of a kind showroom experience. Dare consumers to compare to any traditional jet for soft tissue and sensitive area therapy. This complete system sets up the spa manufacturer and hot tub retail dealer as the total therapy expert.

Stylish Modern Design

A completely unique look that will not be mistaken for anything else.
