THE RIGHT TECHNOLOGY, THE RIGHT SIZE, THE RIGHT PRODUCTS

THE RIGHT TECHNOLOGY

Through Ozone and AOP products, find the perfect sanitizer combination for every spa. DEL products represent the most advanced sanitizer technology in the industry.

THE RIGHT SIZE

DEL Advanced Sanitizer Products from CMP offer the most complete and effective sanitizer product line for spas. Simple to understand and implement, with two technologies available in Spa and Swim Spa output sizes.

THE RIGHT PRODUCTS

Over the past two years, CMP has assembled the best-built products available. All DEL products use modern corona discharge cells that are nearly bulletproof, with an extremely long life. DEL products for spas and swim spas are compact, simple to install and easy to service.

THE MOST POWERFUL ADVANCED SANITIZER

When germicidal UV light (UV-C) and ozone react through the

Advanced Oxidation Process (AOP) powerful hydroxyl radicals are produced.

AOP is dramatically more powerful than other sanitizers, and even more powerful than Ozone alone. The highly unstable hydroxyl radicals react with contaminants through strong oxidation reactions. This process happens almost *instantaneously*.

HOW FAST IS A HYDROXYL RADICAL?

CHLORINE TAKES
HOURS

OZONE WORKS IN
MINUTES

AOP OXIDIZES IN
MILLISECONDS

OZONE CREATES SAFER, CLEANER, CLEARER WATER

Ozone systems provide clean, clear and safe water for your pool, as well as a significant reduction in chemical sanitizer use.

- Destroys Chemical Resistant Organisms
- Oxidizes Contaminants
- Penetrates Biofilm Buildup
- Micro-Clarifies Spa Water
- Reduces Chemical Demand

O_3 = OXIDATION

Once ozone contacts contaminants, the weak bond is broken, and the free oxygen atom destroys the foreign bodies & contaminants.

DEL:AOP SPA

POWERFUL SANITIZER, INNOVATIVE DESIGN

- Powerful AOP Hydroxyl Radicals for Spas up to 1,000 Gallons
- Front-side LED UV & Ozone Status Lights
- True All-In-One Design: Simple Two-Port Plumbing Installation
- Built-in Venturi Injector
- 100mg/hr Ozone Output, 254nm UV-C
- 120V or 220V
- cRUus, CE Certified, TUV

Portable spa components have been installed essentially the same way for almost 40 years. *It's about time for something better.*

Our goal is to provide complete programs that can transform your spa design process. SQR is a complete system for installing spa components, and we are adding more products every year.

"OLD" WAY

"But why would I switch from the way we've always done it?"

ELIMINATE TOP INSTALL FAILURES

- No more leaks due to poor back-grinding
- No more leaks due to pinched gaskets

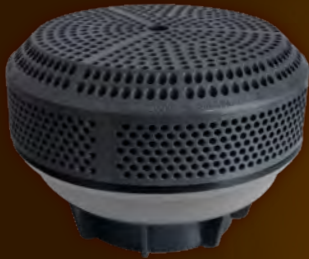

SQR WAY

INCREASE PLANT EFFICIENCY

- Fewer installation tools
- Fewer components to stock, stage & install
- Shorter installation process
- No more messy, expensive & time consuming sealants
- Fewer steps creates a more reliable process

COMPLETE SQR SYSTEM PRODUCTS
